# GSZ14 **HEAT PUMP**

#### **ENERGY-EFFICIENT**

UP TO 15 SEER, UP TO 9.0 HSPF PERFORMANCE

# Thank goodness for Goodman.

Goodman is one of the biggest names in home cooling, heating and energy-efficient home comfort. That's because Goodman lives up to its name in a big way, with time-tested energy-efficient technology, highly-durable materials and spot-on manufacturing. So, no matter where you live or whether your home is small or large, Goodman probably has a solution to help keep your home comfortable.

# Goodman will keep you cool as a cucumber. Chill. It's a Goodman.

The best heat pump is the kind you don't have to think or worry about. It comes on the moment you need it and then runs quietly and efficiently all year long as needed. The **Goodman** GSZ14 is loaded with features designed to provide outstanding performance for years to come. We use advanced techniques and materials so you know the cozy, even temperature you feel in every corner of your home is an energy-efficient trend that's designed to stay for many years.

# Don't let high utility bills give you the chills.

Our complete line of heat pumps are priced to help add comfort to your budget from a local independent **Goodman** dealer. And that's only the beginning. We want you to smile every time you open your utility bill, so we design energy-efficient technology into our units.

# Taking pride in our company heritage.

Goodman brand heating and cooling systems are designed to provide refreshingly affordable and energy-efficient indoor comfort solutions using advanced technology. But the company ultimately adheres to some old-fashioned values too. Goodman believes in the integrity of the American worker. That's why Goodman brand heating and cooling systems are designed, engineered and assembled in the United States.

Experience reliable indoor comfort for everyone in your home year after year after year.

# A LOT GOES INTO EVERY GOODMAN® BRAND GSZ14 HEAT PUMP

#### The art of precision

**Quiet Condenser Fan Motor** – High-efficiency, single-speed motor with special three-blade fan design provides dependable, quiet airflow across condensing coil.

**Efficient Cooling Capacity –** Refrigeration-grade premium copper tubing and aluminum fin condenser coil configuration deliver outstanding heat transfer properties with R-410A refrigerant.

Goodman heat pumps simply work the way they're supposed to, making each one a thing of beauty.

**Quiet Operation** – An acoustically engineered top on the unit helps reduce noise levels compared to units without sound control enhancements.

**Factory-Installed Bi-flow Liquid Line Filter Drier –** Protects the refrigerant system from dirt and moisture for longer service life compared to units without filter driers.

**Factory-Installed Heater Band and Suction Line Accumulator –** Ensures refrigerant is ready even in extreme external temperatures for smooth and energy-efficient performance.

#### SMARTCOIL™ TECHNOLOGY SMALLER IS SMARTER

Long ago the HVAC industry determined that the combination of copper tubing and aluminum fins provided the most efficient transfer of thermal heat available. Today, the Goodman brand has improved upon this industry standard by making the condenser coil copper tubing smaller and smarter.

The result is a heat pump unit that can offer high efficiency, use less refrigerant, and deliver moneysaving and energy saving comfort to you for years and years.

### COUNT ON OUTSTANDING LIMITED WARRANTY\* PROTECTION

10 PARTS LIMITED YEAR WARRANTY \*Complete warranty details available from your local dealer or at www.goodmanmfg.com. To receive the 10-Year Parts Limited Warranty, online registration must be completed within 60 days of installation. Online registration is not required in California or Quebec.

When your current heat pump breaks, it's good to know that your local, independent Goodman® brand contractor has financing options available to help defray what might be considered an emergency purchase for your home.

#### **PERFORMANCE**

15 SEER

9.0 HSPF "SEER" stands for Seasonal Energy-Efficiency Ratio, which is a measurement of a heat pump's cooling efficiency developed by the U.S. Department of Energy. It's a simple formula: the higher the SEER of your unit, the greater its efficiency – and the lower your operating costs. "HSPF" stands for Heating Seasonal Performance Factor, which measures the heating efficiency of a heat pump.

#### ONCE YOU CHOOSE THE GOODMAN® BRAND, YOU'LL PROBABLY BE A FAN FOR LIFE.

YOU COULD BECOME ONE, TOO!

Just go to <a href="www.goodmanmfg.com/reviews">www.goodmanmfg.com/reviews</a> and find out why you'll say "Thank goodness for Goodman®."
